

GLORY ROAD TRANSFER CENTER SUN METRO

CLIENT

SUN METRO
CITY OF EL PASO

LOCATION

EL PASO, TEXAS

ROLE

CONSTRUCTION MANAGEMENT

PROJECT

7 LEVEL, 436 SPACES
\$10 MILLION

Sun Metro, the public transit service in El Paso, Texas turned once again to ECM International for an important project. The Glory Road Transfer Center and Parking Garage is designed to enhance connectivity with Sun Metro and UTEP faculty and students.

The \$10 million full-service facility provides 436 parking spaces in seven levels as well as multiple bus stop bays, waiting areas, public restrooms, restaurant and retail space and landscape areas. The Sun Metro staff enjoys office space and a driver's lounge area. This project achieved LEED Gold Certification.

ECM was fully-involved as owner representative from development of master schedules thru multiple phases of design packages to completion of construction and the installation of two art murals celebrating the Miners NCAA Basketball National Championship in 1966. This Glory Road program benefited greatly from proactive coordination with multiple stakeholders including Sun Metro, City of El Paso, UTEP and several utilities
