

# MEDICAL EQUIPMENT PRODUCTION FACILITY MEDTRONIC / COVIDIEN

## CLIENT

MEDTRONIC/COVIDIEN

## LOCATION

CIUDAD JUAREZ, MEXICO

## ROLE

PROJECT MANAGEMENT

## PROJECT

77,000 SF

Medtronic / Covidien is an Irish-headquartered global health care products company and manufacturer of medical devices and supplies. Medtronic develops and manufactures devices and therapies to treat more than 30 chronic diseases.

ECM International served as project managers for a Kendall Healthcare (Medtronic subsidiary) facility in Ciudad Juarez, Mexico. The building expansion was for a disposable medical supply factory. ECM provided a diverse mix of technical, professional, and project management services ranging from conceptual design thru project scope, contractor acquisition and building completion.

The success of the 40,000 sf Juarez project led another, similar contract for Kendall's 37,000 sf expansion in Puebla, Mexico.

ECM offers a broad assortment of capabilities and solutions to help clients find peace of mind with complex and time sensitive building programs.
