\$48 MILLION

ECM International was contracted by the Socorro Independent School District to conduct plan review and third-party inspection services for the Eastlake High School addition, which included classrooms, labs, a performing arts auditorium, gymnasium, athletic fields, a cafeteria and site improvements.

Plan review services included review of building, mechanical, electrical, plumbing and landscape drawings. Third-party inspections included similar components.

The Certified ICC inspectors from ECM made over 200 inspections during the 14-month construction process and were responsible to coordinate work with the contractor, SISD and the fire marshal to conform to the specific requirements of the different entities.
