CONSTRUCTION MANAGEMENT

PROJECT

150,000 SQ FT
\$6.2 MILLION

Mann + Hummel is a Germany-based international provider of a wide range of automotive, industrial and commercial parts and filters including familiar names such as Wix and Purolator.

ECM was hired as Project Manager for the construction of a new 150,000 sq. ft. facility housing manufacturing, warehousing, administration and employee amenities in the El Marques Industrial Park in Queretaro, Mexico.

ECM was involved throughout the entire building process from design thru completion.

ECM has completed an impressive assortment of facilities all across Mexico for companies all across the globe. We work in all regions of the country across a broad range of hi-tech sectors.
