

# ELECTRONICS MANUFACTURING FACILITY PHILIPS ELECTRONICS

## CLIENT

PHILIPS

## LOCATION

CIUDAD JUAREZ, MEXICO

## ROLE

CONSTRUCTION MANAGEMENT

## PROJECT

200,000 SQ FT

Philips is a Dutch technology company with primary divisions focused in the areas of electronics, healthcare and lighting. It is one of the largest electronics companies in the world and operates facilities in more than 60 countries

ECM International provided project management services for Philips' sophisticated computer monitor factory in Juarez, Mexico. The 200,000 sq. ft. industrial facility includes a world-class manufacturing floor as well as over 24,000 sq. ft. of office space, meeting facilities and other amenities.

ECM contributed with a wide range of construction management services including environmental assessments, GC bid review, construction scheduling, design and specifications review, construction inspection, systems testing and final building acceptance.

Philips Electronics is another example of the impressive assortment of facilities ECM has completed across Mexico for global clients.
