

EL PASO STREETCAR SUN METRO

CLIENT

SUN METRO
CITY OF EL PASO

LOCATION

EL PASO, TEXAS

ROLE

QA/QC
Third Party Inspections

PROJECT

\$97 MILLION

ECM was hired to provide third party inspections and manage the quality assurance program for the 4.8 mile long project, which runs through the heavily congested, urban areas of Downtown El Paso to the University of Texas at El Paso (UTEP) campus.

ECM is playing a vital role in the QA team by utilizing their knowledge of the City of El Paso standards and the Texas Department of Transportation (TxDOT) Spec Book to verify that all work was performed in compliance of the standards and specifications. ECM has performed over 10,000 quality assurance inspections for this project thus far. Other responsibilities for this project include preparing and submitting daily progress reports, performing traffic control and SWPPP inspections, keeping the contract administration team informed of relevant issues pertaining to the project, tracking and reconciling quantities for the contractor's monthly pay estimate, and managing material acceptance testing.
