

TAXIWAY RECONSTRUCTION EL PASO INTERNATIONAL AIRPORT

CLIENT

EL PASO INTERNATIONAL AIRPORT
CITY OF EL PASO

LOCATION

EL PASO, TEXAS

ROLE

CONSTRUCTION MANAGER

PROJECT

\$36 MILLION

ECM International has delivered a wide range of vertical and horizontal projects for El Paso International Airport (EPIA). ECM served as construction manager for this program which involved the reconstruction of aircraft taxiways to meet current FAA standards.

Existing asphalt Taxiways “J”, “K” & “L” and associated Taxiway Radius Geometries were reconstructed with hydraulic concrete to be in full compliance with FAA specifications. As construction manager, ECM handled all aspects of project oversight and successfully coordinated one construction contract with two separate design and construction teams while enforcing the strict adherence with FAA and EPIA security protocols.

ECM was in charge of quality assurance and also provided close coordination with EPIA for the relocation of an unforeseen critical FAA ductwork
